

ATS READERS ON THE MOVE!

Arlington Traditional School
2021 Summer Reading Challenge

Unpack a World of Possibilities When You Open a Book!

It is somewhat reassuring that everything will always move. Our hearts beat about 100,000 times a day. The planet Earth rotates roughly 1,000 miles per hour. Life changes and will always be changing. Things come and go - even schools! But we know that a school is a community, not a building. This summer, ATS will move. Your teachers, administrators, specialists, and staff are excited to unpack a world of possibilities in a new building we will call home.

As your teachers and staff prepare for a new school year, you can unpack a world of possibilities as you read this summer. Open your mind and your schedule and set time aside each day to read. **Read at least 50 books this summer! This is not optional. For hauling chapter books, 25 pages equals one book! If you are a student entering kindergarten, you may have books read to you.** Start with the first moving box and number 1. As you read, label the book title in the moving box. When you have filled the moving boxes and read all 50 books, there is a bit more heavy, but heartfelt lifting to do - 10 good deeds to show good character!

Summer is upon us, the squirrels are on their way, so get MOVING and READ!

We will see you in August at 1030 N. McKinley Road!
 Be there or be square...like a box!

It's Not a Box

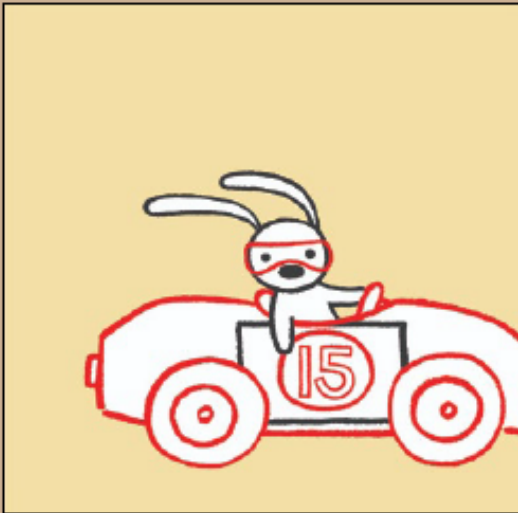

Illustration from Not a Box by Antoinette Portis

The Power of Your Imagination!

A box is just a box – or is it? Can it be a pirate ship? Space shuttle? Race car? Classroom? Robot? Maybe even...gasp...a woolly mammoth?

Let your imagination take over. What will your box become? Share your clever idea here. And if you do build it, attach a picture too! **Remember, it's not a box!** Anything is possible! Have fun!

My box is _____
