

"There seems to be a disconnect between our clever brain and our compassionate heart. What you have to do is to get into the heart. And how do you get into the heart? With stories."

- Jane Goodall, Primatologist and Anthropologist

LET'S HOWL, GROWL, MEOW, AND GET WILD ABOUT BOOKS!

And so summer once again is upon us with trunk loads of time to read and learn! Find your binoculars and your magnifying lens, go outside and wriggle, leap, waddle, swim, gallop, slither, jump, and soar as you observe the world! Then grab a chair. Do some research on what you've seen - and discover more. Write it down. Create a story. Read many stories. Choose books that teach you new things and ideas. Be an advocate and tell others to take care of our Earth and **all living things**. You can make a **ginormous** difference...by looking, reading, writing, and speaking out!

Directions: (1) Label the oceans on the map above. (2) Use this Map Key to label the continents. (3) Use the Word Bank below to label the animals!
